FOR IMMEDIATE RELEASE

GrowthZone Launches a Software Edition for Chambers of Commerce

Nisswa, MN - GrowthZone, Inc., recently introduced its GrowthZone ChamberMaster Edition to the chamber of commerce software marketplace.

Built on GrowthZone's success in providing cutting-edge technology to associations and member-based organizations, GrowthZone ChamberMaster Edition offers a robust portfolio of modules that maximize functionality and convenience for chambers of commerce.

The platform enables chambers to drive growth and streamline communications through its fully integrated Marketing Automation and Member Recruitment modules. Additional functionality includes customized permission levels and the Project Management, Fundraising, and Continuing Education modules. The result is a powerful, intuitive system designed to maximize chamber productivity and boost membership.

GrowthZone's flagship product, ChamberMaster, will continue as part of the company's product offering and will maintain its standing as the chamber industry's leading member management software solution.

"GrowthZone is our next-generation AMS platform. We've taken all we've learned from working with chambers and associations over the past 18 years, along with literally thousands of product feature requests from our customers, and packed them into this solution," said John Cook, Senior Vice President of Marketing. "In essence, chambers of commerce now have another choice in the GrowthZone software portfolio. They can determine which platform best meets their needs and move forward with complete confidence in the company's commitment to providing a superior product."

About GrowthZone

With headquarters in Nisswa, Minnesota, USA, GrowthZone Association Management Software and ChamberMaster Membership Management Software have helped over 3,000 member-based organizations grow and retain membership, generate revenue, engage and communicate with members and prospects, and streamline their day-to-day operations.
