## **GrowthZone AMS Reaches Milestone**

*100<sup>th</sup> Real Estate Association Adopts the GrowthZone Software Platform*

**NISSWA, MN – March 4, 2021** – Greater Bangor Association of REALTORS® recently selected GrowthZone AMS as their association management software provider of choice.

This milestone marks the 100<sup>th</sup> real estate association adopting GrowthZone Real Estate Edition software and underscores its key role in providing a comprehensive technology system for real estate associations.

"I selected GrowthZone after researching various AMS options. I was frustrated with our current system; even basic tasks were clumsy and hadn't improved in over five years," said Marcia Bartol of Greater Bangor Association of REALTORS®. "GrowthZone is more professional looking, user friendly, and intuitive than the other systems available. I'm especially looking forward to the integration with our website, setting up events, and of course dues season - the time saved will be amazing," she continued.

The GrowthZone Real Estate Edition delivers a robust AMS platform and incorporates NRDS and NAR eCommerce Network interface, MLS platform integration, lockbox management, and continuing education tracking.

"This achievement highlights our commitment to real estate associations," said John Cook, GrowthZone Executive Vice President of Marketing. "It emphasizes our position as the market leader and the standard we set, offering associations a suite of industry-specific features they can depend on."

Over 3,500 member-based organizations globally use GrowthZone. The software has been recognized as a Capterra Top 20 AMS, GetApp Category Leader, Software Advice Frontrunner, and G2 Industry Leader.
