## **GrowthZone AMS Announces Opening of Minneapolis Office**

**Nisswa, MN – May 21, 2021** – GrowthZone AMS, a leading provider of association management software, recently announced the opening of an additional location.

The Minneapolis office was added to accommodate the company's accelerated growth and to leverage the area's diverse talent pool. As GrowthZone's first office outside of its Nisswa, MN headquarters, it is home to a growing team in the Twin Cities metro area.

"Expanding our presence into the Minneapolis/St. Paul area was a logical step in our business growth strategy," said Roger Fuhrman, Vice President of Sales. "It works in tandem our technology investments and our growing team - we expect to add additional employees in 2021."

According to the Minnesota Technology Corridor, Minneapolis/Saint Paul is one of the country's largest and fastest-growing tech regions. With a 52% growth rate in tech jobs over the past five years, it is now home to 136,000 tech jobs, and the sector's estimated direct economic impact on the state of Minnesota is \$31.1B.

"A healthy company culture, supportive atmosphere, and convenience are critical to staff productivity and retention. Our Nisswa headquarters offers a unique, welcoming environment, and we wanted to ensure our Twin Cities team members have a similar experience," Fuhrman said.

Located at 494 & France, the building offers a robust set of amenities, including a cafeteria, gym, car detailing service, and a hair salon. A fun bocci ball court complements the tastefully appointed courtyard.

"GrowthZone is committed to an ongoing investment in our product and our people to increase our ability to provide best-in-class customer service and innovative technology," commented John Cook, Senior Vice President of Marketing.

Over 3,600 member-based organizations globally use GrowthZone software. The software has been recognized as a Capterra Top 20 AMS, GetApp Category Leader, Software Advice Frontrunner, and G2 Industry Leader.
